Aleph Diallo, graphic designer

yell@**badbunsen**.com
www.**badbunsen**.com
@badbunsen

soft skills:
arrives as early as possible * communication and implementation of feedback * self-reliant * right-handed * experience with both windows and macintosh

industry software:
photoshop (2020-) (would buy outright) ***** **(certified in 2025)**
illustrator (2022-) (the other one) ****
indesign (2026-) (you're looking at the skill right now) ****

hobbyist:
frontend webdev (2020-) (hosts a website on github pages) ***
flash/animate (2020-) (owns 8.0 on disc) ****
director (2023-) (bought a book on lingo... still can't code) *
microsoft paint (2017-) (the classic) *****
krita (2024-) (better for dedicated painting on desktop) ****
ibispaint (2019-) (paywalls on paid version, may switch) *****

the high school of art and design (2024-2028)
career & technical education
graphic design major
start year: sep 2024
expected graduation: june 2028

timbuctoo institute (volunteer internship, 2026)
learned about the many ways we can help with nature, paid or otherwise. at the end we went canoeing, which was very fun... but also had a bunch of points where we had to pick up the canoes... not fun.

the art & design observer (club internship, 2024-2026)
newspaper club! we learned about journalism, how to give interviews and how to write a review. i made the former logo and helped with the site's overall design. i personally prefer my version of the logo but the one that's currently there is fine, as well. the site is currently down, but it should be back up by the end of the year: theadobserver.org
